WELCOME TO Southwind

**WE BELIEVE CHOOSING A NEW FLOOR
SHOULD FEEL EXCITING, INSPIRING, AND EASY.**

Choosing a new floor should shape how a space feels, how it functions, and how it supports everyday life.

At Southwind, we design floors for the way people actually live and work. From family homes and gathering spaces to Main Street environments, our products are built to balance beauty, durability, and confidence.

We believe flooring should be approachable and thoughtfully made. That belief shapes every collection we offer, from the materials we select to the details we refine.

We are here to help you explore your options, understand what matters most, and choose a floor that fits your space with clarity and ease.

THE Southwind WAY

The Southwind Way exists to make flooring a decision people can feel confident about. In an industry full of complexity, shortcuts, and noise, we choose to focus on clarity, consistency, and doing the work the right way. That commitment shapes every product we bring to market and every experience we help create, so choosing a floor feels less uncertain and more dependable from start to finish.

1

BUILT ON RELATIONSHIPS

Our business has always been about people. The way we treat our team, our retail partners, and the families who choose our floors is not separate from our success; it is the reason for it. Strong relationships lead to better work, better products, and better experiences.

2

STRAIGHTFORWARD BY NATURE

We believe in doing business the right way, with clear communication and honest expectations. That means showing up every day and doing what we say we will. It's how we've built trust over time, and how we intend to keep it.

3

UNCOMPROMISING QUALITY

Flooring is more than a product to us. It's a trade, a skill, and something we take seriously. From materials to construction to finish, we care about the details because we know those details show up in people's lives long after a floor is chosen and installed.

4

TIMELESS DESIGN

We focus on thoughtful design and consistent quality that feels right today and remains right years from now. That long view guides every decision along the way.

5

MADE FOR REAL LIFE

Homes and spaces are meant to be lived in. Our floors are built to stand up to everyday moments, big and small, while still looking good and feeling right underfoot. Because a floor should support life, not complicate it.

SEE IT IN YOUR ROOM

SEE IT BEFORE YOU DECIDE

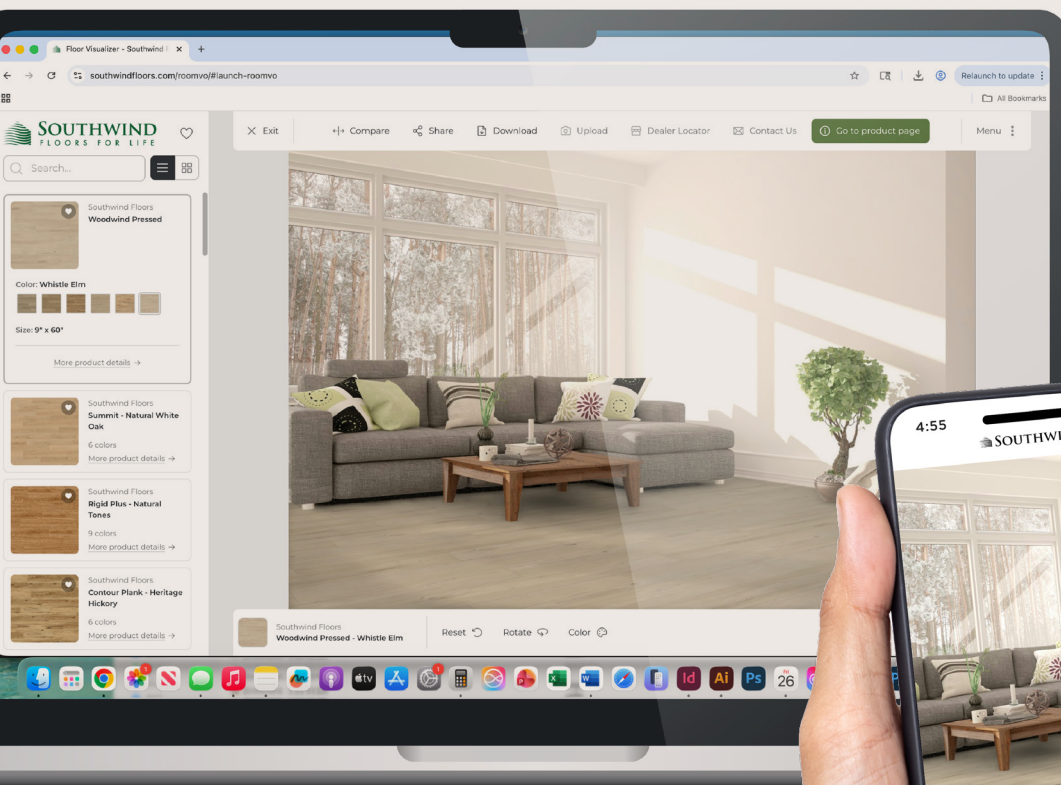

Choosing a floor is easier when you can see it in your own space. Our room visualization tool lets you explore Southwind floors in your room so you can feel confident before you commit.

ONE ROOM. REAL CLARITY.

Upload a photo of your space or choose a similar room, then try different styles and colors until something feels right. No guessing. No surprises.

USE IT ALONGSIDE YOUR LOCAL DEALER

Visualization helps narrow your favorites. Your local flooring professional helps bring it to life with samples, guidance, and expertise.

TRY IT NOW
Visualize Southwind
floors in your space.

Final appearance may vary based on lighting, installation, and surrounding finishes.

Oh, you
thought we just
made carpet?

Bless
your
heart

We've got more flooring choices than your cousin's got opinions. We're talkin':

- Carpet softer than Sunday morning biscuits
- Waterproof laminate that can handle more sweet tea spills than a church social
- Engineered hardwood that's as pretty as a peach
- Flexible LVT/LVP that lasts longer than your mama's tupperware
- Carpet tile that can handle more traffic than a Waffle House on a Saturday night
- Rigid core that could outlast your grandpa's truck

All Made "The Southwind Way"
Honest · Hardworking · Built to Last

SOUTHWIND
FLOORS FOR LIFE

Engineered Hardwood Color: Legacy Oak

CARPET TILE

A soft surface floor built from individual tiles that come together as a unified system. Its modular design allows for easier installation and for select tiles to be refreshed or replaced over time without disturbing the entire floor. Designed for performance and practicality, carpet tile offers long-term ease of maintenance for spaces that demand style and flexibility.
